Parboiled ■ Red-Grain ■ African Rice
Superior Taste & Texture

Mountain Lion Agriculture was proud to receive the 2013 Africa Enterprise Challenge Fund Award and the 2014 Canadian Social Finance Award.

✔ **Locally Sourced**

A Sierra Leonean company, 100% of our raw paddy rice is sourced from local farmers whom we support with seed loans, equipment and access to markets.

✔ **Competitively Priced***

Our rice is 5000 LE (approximately 1 USD) less per 50kg bag than imports of comparative type and quality.

✔ **Nutritious**

Mountain Lion Agriculture's parboiled, red-grain rice is some of the most nutritious rice in the world. Our rice is high in vitamin A, iron and protein, and is doctor-recommended for individuals with diabetes and/or hypertension. (Source: SunWest Food Laboratory Ltd Canada)

✔ **Community Investment**

Profits are re-invested into our operations, allowing us to help more smallholder farmers and to fund medical clinics, education and infrastructure.

✔ **Highest Quality**

The only major rice producer in the country, our rice is the cleanest, highest quality local rice available in Sierra Leone. We sold over 800 metric tons during the Ebola crisis, much of it to the World Food Programme which has stringent quality criteria.
